

New Mexico Cattle Growers' Association

Hi-Store Consolidated Interim Storage Facility Project Resolution

- Whereas: In southeastern New Mexico Holtec International has proposed a consolidated interim storage facility, known as Hi-Store, for nuclear waste to be built and operated; and
- Whereas: New Mexico Cattle Growers (NMCGA) is greatly concerned that the input of local ranchers and land lessees has not been sought or considered during Eddy-Lea Energy Alliance, LLC's (ELEA) and Holtec's process; and
- Whereas: NMCGA wants verifiable assurances that every effort is being made to inform those directly involved by the Holtec International HI-STORE CIS project including the Bureau of Land Management (BLM) and State land lessees and the surrounding communities and their input should be considered.

Now Therefore Be It Resolved: New Mexico Cattle Growers' Association opposes Holtec's International's Hi-Store consolidated interim storage facility project proposed in Eddy and Lea Counties, NM; and

Furthermore be it Resolved: New Mexico Cattle Growers' Association supports the residents, communities, and state government officials in their opposition to construction and operation of the Hi-Store consolidated interim storage facility in New Mexico.

Action Plan
